Congress has just passed a law giving a Pension of $8 per month to all Soldiers of the War of 1812, who served 14 days or were in battle—and the same pension to the widows of all such soldiers.
This entitles *all* to a pension who have received Land Warrants.
All desiring the pension can obtain it, by applying to me in person at my office, or by letter.
I have all the old Rolls, on which is borne the names of all soldiers of the War of 1812, with the place and length of service and date of discharge, and all facts, and I can give full and exact information in every case.
Also a record of most of the Land Warrants granted to these soldiers.
No person, east of Portland, has these rolls, except myself and A. J. Chapman, Esq., of Bangor, —he has equal facilities for obtaining these pensions. He was formerly a clerk in my office.

AMERICAN SHIPPING.

Speech of Senator Blaine at Chester, Pa.

There was an enthusiastic demonstration at Chester, Penn., on Saturday, the 20th, in opposition to the reduction of the present duties on articles of foreign manufacture. Four thousand men were in the procession, and ten thousand were assembled at the grand stand, where speeches were made by Senator Blaine, Representative Ward and others. The former spoke of the pecuniary loss the country had suffered by permitting its carrying trade to pass into the hands of other countries, the unequal development of our internal channels of commerce and the necessity of encouraging legislation to enable American commerce, to compete successfully with that so heavily subsidized by foreign nations. The *Tribune* publishes the following report of Senator Blaine's remarks:

CAUSES OF THE DECLINE OF THE AMERICAN SHIPPING.

During the past twenty years we have made gigantic strides forward in the settlement of new States and Territories, in the vast increase of our agricultural products, in the marvellous construction of our railway lines, in the unprecedented growth of our manufacturing industries, both in extent and variety. And while, as a necessary result of all these developments, the bulk of our foreign commerce has grown enormously, we have witnessed a steady decline in our American merchant marine. We read the statistics of our decadence with astonishment and mortification. In 1857 there were carried in the foreign commerce of the country, to and from all our ports, more than $500,000,000 of merchandise in American-built ships, while foreign ships of all nations carried little over $200,000,000. Twenty years pass by, and in 1877 we find that American-built ships carry less than $300,000,000, while foreign-built ships carry about $800,000,000. In other words the amount of merchandise carried in our foreign trade in American vessels has fallen off more than 40 per cent. in twenty years, while the amount carried in foreign-built vessels has increased well nigh four fold in amount. In 1857 American vessels did five-sevenths of the whole; in 1877 they did little more than a quarter of the whole. For a change so radical and disastrous there must be deep-seated and continuing causes, and it is certainly among the most important duties of American statesmanship to ascertain them, and, if possible, to remove them. In the limits of my brief remarks to-day, it is impossible to do more than allude to the series of causes which have produced the unhappy condition of affairs now existing. The highest point of prosperity perhaps ever reached by our merchant marine was in 1854, 1855, and 1856. But the cessation of the Crimean War, by which we had largely profited, followed by the panic and prostration of 1857, greatly depressed our shipping interest, and before we had fairly got under way again, the war of the rebellion came on; our large cotton trade was suddenly stopped; our seamen betook themselves to our hastily enlarged navy; piratical cruisers bearing the Confederate flag, but really built and manned by Englishmen, took to the sea and made it so unsafe for vessels bearing the American flag that freights by them had to pay an enormous premium for war risks, and consequently merchants were compelled to send their cargoes by neutral vessels in order to insure safety and decrease expenses. These causes in active operation with increasing effect for four destructive years, inflicted a terrible blow upon the merchant marine of America, and correspondingly developed and built up that of our great commercial rival, England.

UNEQUAL DEVELOPMENT OF INTERNAL COMMERCE.

And just here it is worthy of observation, that, as a people, during this trial period of our commercial life, we have expended every imaginable effort to build up our internal commerce by the construction of railways. Individuals, poor as well as rich, farmers and merchants, and bankers and manufacturers have all united with their cash and then they have pledged corporate credit for loans, and then they induced towns and townships, boroughs and cities, counties and States, and finally, the National Government, to aid in the huge incalculable task of building 80,000 miles of railway within our borders—more than can be found in all the world beside; and yet, with all this effort, unmeasurable and unprecedented, to bring the products of our prairies and our valleys, of our mountains, and our mines, to the seaboard, we quietly abandon all effort to control its transport abroad, and coolly resign it, with all its wealth of profit and power, to the alien and the stranger. From 1846 to 1871 Congress passed ninety-one acts to aid in the construction of railways, and has given most lavishly and munificently of the public domain to that end; but both Congress and the people, all of us together, have apparently folded our arms and witnessed the transfer to foreign countries of a commerce which is our birthright, and whose control is worth more, annually to our country in hard dollars than the entire interest on our national debt. The foreign steamship lines that run between New York City and European ports represent as great a carrying capacity for freight, in addition to the passenger traffic, as could be afforded by fifteen hundred sailing vessels of a thousand tons burden each. Add to these the foreign lines that run to Portland, to Boston, to Baltimore, to New Orleans, and you can see how the sailing vessel has to so large an extent been driven from the channels of the North Atlantic, the largest and wealthiest commercial field of the world.

GOVERNMENT AID TO FOREIGN SHIPS.

When we contemplate this condition of affairs the doctrinaire of free trade steps forward with his ready suggestion and says: "Give us free ships and we will at once establish steamship lines between our ports and Europe." The genuine free-trader never believes that anything can be produced in this country as cheap or as good as it can be found abroad, and if you offer him forty-two currency, per ton, a steamship built on the Delaware he will try to purchase you that one built on the Clyde for £14 per ton is a vast deal cheaper, though the American iron used in our steamships is admitted to be of better quality than that employed in the English yards. But if you gratify the whim of the free-trader and permit American registers to underlie and the American flag to float over any ship wherever built, what have you gained? Can you run these lines on the basis of free-trade against the great English and French lines that are aided and upheld by their Government? The free-trader would persuade you that foreign nations no longer aid their steamship enterprises. Why, gentlemen, this is a most serious mistake. England has never withdrawn aid from her steamship lines until she had enabled them to defy, if not to destroy competition. When the Cunard Line was first established, nearly thirty-seven years ago, England paid its projectors for mail service an allowance of $900,000 per annum, if I mistake not, and this was continued, I believe, for the long period of twenty-five years, down to and included 1866; and for the last ten years England has paid mail allowances to her various steamship lines, amounting in the aggregate to £10,000,000 sterling, or an average of five million gold dollars every year; and France, emerging from her war with Prussia, wounded, humiliated, bleeding, with two great provinces torn from her, with the vast expense of the conflict to pay, with a superadded war indemnity of a thousand millions of dollars; France, with all these disastrous and deadening discouragements, maintains her great steamship lines over all the world by paying them for mail service an allowance of more than twenty-three millions of francs, or more than four and a half millions of dollars, being equivalent to $6 per mile sailing distance. Even Italy, which we scarcely recognize as a maritime power, pays yearly to her steamship lines more than eight millions of francs. I do not wish to give this audience the slightest encouragement to believe that our Government will aid the establishment of steamship lines in any direction. There is undoubtedly strong opposition to it among a large portion of our people, among some from principle, among others from prejudice not unnaturally arising from a misused subsidy to two lines in the past—a subsidy, however, that was granted on a wrong basis which there is no danger of repeating in the future—nor would it be a matter of propriety for one in my position to discuss here the probable action of Congress on those questions concerning which I may have to act as a Senator. I am here today only as an American citizen, as a Republican, as a profound believer in the great doctrine of protecting American labor and of producing as much as possible within the United States.

THE KENNEBEC AND THE DELAWARE.

I represent the largest ship-building State in the Union. In the Valley of the Kennebec, where I reside, the art of building wooden ships is as well understood as it ever has been by any community since Columbus crossed the Atlantic; and at the City of Bath, with its 10,000 industrious inhabitants, there are more wooden ships built to-day, than at any other place on the globe. And if it should become the policy of our Government to aid in building up steam marine to compete with those of England and France, I warn you, gentlemen on the Delaware, that you will find your quickest rivals among the people whom I represent, and in the beautiful valley that I am proud to call my home. But here on the branch of this superb river you have taken the lead, and I wish the whole American people could see what you have done against all hindrances and discouragements.

AMERICA'S POSSIBILITIES.

If our country were for a few persistent years of like mind with Great Britain and France on this great commercial question, you would find all over the land great shipyards springing up to supply the demand for the steam marine of America. When we had a fair chance and equal terms, our sailing vessels gained on Great Britain, until, for the last ten years before the outbreak of the rebellion, we were abreast, if not ahead, of her in aggregate tonnage; and, on equal footing, we would speedily do the same in our steam marine. But with England and France aiding their lines with mail contracts to drive other lines from the sea, it is idle for us to enter the race. A very small amount comparatively would enable us to become the victors in the struggle for ocean supremacy. What it costs us to support two regiments of cavalry in the regular army, or to maintain five large men-of-war afloat in the navy, would give us lines of first-class American steamships to foreign ports—from at least six of our principal commercial cities—Atlantic, Pacific and Gulf. We stand in the position to be the first commercial nation in the world. Alone of all the great Powers we have a vast frontage on the two oceans whose waters bound all the continents and float the commerce that civilizes and enriches the world. Our coast line is longer than that which borders Europe; our harbors are more numerous and more capacious than those of all our maritime rivals combined. Nature has given us the position and the power to lead the commercial world. Shall we use our opportunity or abandon the field to those who have no title of our advantages? If we can only regain the proportion of our commerce which we held in 1855, the profit to our people will be more than $100,000,000 per annum. Shall we go forward, or shall we continue to retreat?

FALSE REPORTS BY INFLATIONISTS.

MISREPRESENTATIONS ABOUT SECRETARY SHERMAN'S SYNDICATE CONTRACT—HE IS PROUD OF HIS SUCCESS.

[Cor. N. Y. Tribune.]

WASHINGTON, April 22.—A movement seems to have been begun all along the line by the inflationists to defeat Secretary Sherman's efforts, to place the Treasury Department in a position to establish and maintain specie resumption. All sorts of reports have been sent out from Washington for the purpose of discrediting the contract which the Secretary of the Treasury lately made with the Syndicate. It has been said that the terms of this contract have been carefully concealed from the public, or misrepresented; that the Syndicate has agreed really to take only $10,000,000 of the 4½ per cent bonds, and by some it is reported that the Secretary is obliged to take back such of these bonds as the Syndicate cannot sell. It was also reported that the Banking and Currency Committee of the House has summoned the Secretary of the Treasury to appear before it and explain the contract, and that he has not done so; all of which has no foundation whatever in fact.

The contract which the Secretary made with the Syndicate on the 11th of the present month was as public as any act of the kind ever performed by the Government. It was signed in the presence of Attorney-General Devens, Comptroller of the Currency Knox and General Hillhouse, and its terms were immediately published in all the newspapers. The text of the contract was not given to the press, but it was not withheld because of any desire of concealment, but because the bankers composing the Syndicate preferred that the details of the distribution of the bonds among them should not be announced. So far from attempting to deceive or mislead the House Committee on Banking and Currency, the Secretary, when called before that committee, told its members plainly that he intended to replenish his stock of gold by selling bonds. When General Ewing, by his questions, brought out the fact that it was at that time impossible to sell 4 per cent bonds at par, Mr. Sherman replied that he should sell 4½s or 5s. The Committee on Banking and Currency has never asked the Secretary to appear before it since this contract was made. If it desires his attendance he will only be too glad to answer its summons and to reply to all questions. The committee has sent a letter to the Secretary requesting him to furnish a copy of the contract with the Syndicate, and this he did last Friday. He had two days before responded to a like request from Mr. Glover.

The Committee on Banking and Currency also requested the Secretary to report to it in regard to the amount of accrued interest allowed the Syndicate under its contract, apparently supposing that this was to be secured by the Syndicate as a part of its profits. The Secretary has replied that no such allowance has been made. The bonds subscribed for by the Syndicate were dated March 1, and there was, therefore, accrued interest on them for forty-one days. This was added to the price at which the bonds were sold, and was paid in gold. Adding the accrued interest, and reckoning gold at ⅛ of one per cent premium, the rate of which it was quoted April 11, the price obtained by the Secretary for his bonds is found to be a trifle above that at which they were sold in the market on the same day. The terms of the contract with the Syndicate are identical with those of the one under which $200,000,000 of these 4½ per cent bonds were sold. It requires the purchasers to take $10,000,000 on the day the contract was made. This they did and they have already paid $7,000,000 on account of this first subscription. The Syndicate is also to take in addition $5,000,000 a month, and if it fails to do this, the Secretary of the Treasury has the right to cancel the contract, in which case the Syndicate would lose its commission on the amounts actually purchased and paid for. This provision, which the Government always inserts in contracts of this kind, is the one which the inflationists say makes the arrangement of no effect. Its object is to protect the Government in case of failure by the Syndicate to execute its part of the contract. The Secretary of the Treasury has nothing to conceal in connection with this matter. On the other hand he feels proud of his success, and believes that the better his action is understood the more it will be approved by the public.

SETTLING SOME ISSUES OF FACT RAISED BY REV. DR. B. F. TEFFT.

On the 19th inst. we felt called upon to prepare for our columns of the 20th inst., a brief statement of some remarkable events with which the Rev. Dr. B. F. Tefft was conspicuously connected, and which had been the subject of current comment. As these events embraced the indictment in two States of a person who had made himself somewhat prominent in this locality, a requisition for his rendition as a fugitive from justice having been sent to the Governor of Maine by the Governor of New York, we felt it our duty as the local agency of the Associated Press to report the facts brought to our knowledge from the most trustworthy sources. In doing so we certainly "set down naught in malice," but carefully prepared and telegraphed a brief and rather mild statement of the facts. We had no wish to continue any discussion of the Rev. Dr. Tefft's career, and would have preferred to be rid permanently of a subject so far from agreeable; but he has taken the surprising course of challenging our veracity, and thus compelled us to go somewhat more into unsavory details than we otherwise should. In the Lewiston *Journal* of Monday we found the following remarkable communication:

Dr. Tefft's Denial of a Report

To the Editors of the Lewiston Journal

In your weekly issue of April 25th I find the following paragraph:

"A Bangor associated press despatch says that Rev. Dr. Tefft was arrested in Lewiston, Friday, on charges of irregularities as executor of his sister's estate in Oswego, N. Y., about four years ago. His Oswego bondsmen have secured a full settlement from him. An indictment against him on charges of Eli Rigby, of Upper Stillwater, of being swindled out of his farm and homestead in Upper Stillwater for worthless newspaper (Northern Border) stock, was previously settled."

To these several statements I reply, that every material allegation is absolutely *false*. I have not been in Lewiston for five months. I have no sister, and never had, in *Oswego*, New York. I have committed no irregularities in the settlement of any sister's or other relative's estate. I have made no sale of worthless Northern Border stock to Mr. Rigby, of Upper Stillwater, or of any other place. That gentleman never sold me any farm; nor have I ever owned a foot of land that ever belonged to him. I have made no settlement with him on such account—have not seen him, nor written to him, nor had any communication with him, for six months, and at the time we parted, more than seven months ago, when he had been a stockholder of the so-called Northern Border Company for two years without complaint, and a director and the business manager for the better part of one—a period sufficiently protracted and a connection sufficiently intimate for any person of average intelligence to find out whether he had been "swindled" or not in the purchase of its stock—he made to me the declaration, in the presence of several living witnesses, and in the warmest tones of confidence and friendship, that I had "always used him well," and that he regarded me as his "best of friends."

The dispatch, in a word, is full of falsehoods of a calumnious and criminal character, and of gross blunders almost as bad as crimes. What little grain of fact there was in all this batch of untruths can be very easily vindicated when the right time comes. At this moment I will only say, that if any reader ever knew of the settlement of any estate, by any person, without complaint from any of the heirs or legatees, his knowledge has been greater than my own; and as to the other branch of the subject my experience has been in like manner, in no way unusual or unique. Forty years ago I wrote a careless letter of introduction for a friend to a merchant in Boston. The friend failed, and I was held responsible for my act of kindness. This Rigby matter is of the same sort; and I propose to show it to the fullest extent when the proper time shall come.

All I ask at present is that such newspapers as published the dispatch will do me the justice to publish this refutation; and I shall ask no further favor of the press, provided the subject is allowed here to rest. My perfect vindication is to be sought, and, I trust, received, from a together a different quarter.

B. F. TEFFT.

East Poland, April 26th, 1878.

It will be observed that the Rev. Dr. does not limit himself to any moderate criticism, but sweepingly and sonorously declares that "*every material allegation is absolutely false.*" In a further paragraph he emphatically charges that the despatch "*is full of falsehoods of a calumnious and criminal character.*" These are serious charges. Let us first see what the despatch was, from which the *Journal* made the paragraph that Dr. Tefft quotes, and which he so indignantly denounces. The following is the text of the telegram sent to the Associated Press from this agency:

THE ASSOCIATED PRESS REPORT.

Bangor April 19, 1878. At February term the Grand Jury of this county found indictment against Rev. Dr. B. F. Tefft, on charge of defrauding parties induced to invest in Northern Border newspaper which collapsed. One of the alleged victims, Eli Rigby, complained of being swindled out of his farm and homestead in Upper Stillwater for worthless newspaper stock. Dr. Tefft had left Bangor and his location was not generally known, but shortly after the indictment negotiations were opened with Rigby through counsel in this city. Meantime charges of irregularities as executor of the estate of a sister who died in *Owego*, N. Y., about four years ago were preferred there and several indictments were found. A New York Sheriff brought a requisition upon Governor Connor for Tefft's arrest, but compliance was deferred until officials of this County disposed of their prior case. Rigby secured a settlement by which the deed of his farm was restored to him and the New York officer proceeded to Lewiston where Tefft was found to-day. Despatches received here announce that Tefft's Owego bondsmen, who came with the officer have also secured full settlement from him.

Our readers will please first notice the letters which we have italicised in the Rev. Dr.'s denial, and they will perceive how nobly he has availed himself of some printer's blunder in putting an s into the name of "Owego," which is in Tioga County, New York, and thus enabling him to explicitly deny having had any such experience in "Oswego," which is quite another place, in the County of Oswego, N. Y. We believe that his specific denial of the statements of the despatch, is confined to this highly ingenious play upon a word which was not misspelled in our own version. But he makes the general charge that "every material allegation is absolutely false," and we are in duty bound to meet that accusation, as we shall now try to do.

The "material allegations" of the first portion of the despatch were (1) that in February the Grand Jury of this County indicted Rev. B. F. Tefft, (2) on charge of defrauding parties induced to invest in the *Northern Border*, and (3) that Eli Rigby complained of being swindled out of his farm and homestead for worthless newspaper stock. As our sufficient and very interesting authority for all the above allegations, we cite from the records of the Penobscot County Court the following text of

THE INDICTMENT OF B. F. TEFFT ON THE CHARGE OF DEFRAUDING ELI RIGBY.

"STATE OF MAINE.

Penobscot ss. At the Supreme Judicial Court of the said State of Maine, begun and holden at Bangor, within and for the County of Penobscot aforesaid, on the first Tuesday of February in the year of Our Lord one thousand eight hundred and seventy eight,

The Jurors for the State aforesaid upon their oath present that:

"BENJAMIN F. TEFFT, of Brewer, in the county of Penobscot on the second day of April, in the year of Our Lord one thousand eight hundred and seventy seven, at Bangor, in the county of Penobscot aforesaid, unlawfully, knowingly and designedly, did pretend to Eli Rigby, that the Bangor Publishing Company, a corporation then doing business at said Bangor, was then doing a good business; that it then had three thousand paying subscribers for its newspaper, the *Northern Border*; that it was then earning twenty five hundred dollars a year above expenses, that the notes of said company were then as good as gold; that there was then due said company twelve thousand dollars on its books; that the job-printing and office property was then worth six thousand dollars; that Lewis Barker had offered to loan six thousand dollars on it at six per cent. a year interest as long as the company wanted it; that the liabilities of the company were not large; that it owed Joseph Baker only seven hundred or eight hundred dollars; that if said Rigby would exchange his farm for stock and notes of said company, he would receive as good as six thousand dollars in gold—by means of which said pretences, said Tefft did then and there, with intent to defraud said Rigby, obtain from said Rigby the signature of him, said Rigby, to a certain instrument the false making of which is a forgery, which written instrument is of the tenor following:

[*Here follows a copy of the deed of Rigby's farm, signed by Eli and Lucy M. Rigby his wife, conveying it to Laura Jane Bass of Brewer, as printed elsewhere in these columns.*]

"That said Tefft did then and there make said false pretences to induce Rigby to sign said written instrument, and that said Rigby by said false pretences so as aforesaid made by said Tefft, was induced then and there to sign said written instrument as aforesaid.

"Whereas, in truth and in fact, said Bangor Publishing Company was not then doing a good business, but was in a failing and insolvent condition, and

Whereas, in truth and in fact said Company had not then three thousand paying subscribers for its newspaper, the *Northern Border*,

Whereas, in truth and in fact said Company was not then earning twenty-five hundred dollars a year above its expenses,

Whereas, in truth and in fact the note of said Company were not then as good as gold, but were worthless;

Whereas, in truth and in fact there was not then due said Company twelve thousand dollars on its books;

Whereas, in truth and in fact the job printing and office property of said Company was not then worth six thousand dollars

Whereas, in truth and in fact Lewis Barker had never offered to loan six thousand dollars on it.

Whereas, in truth and in fact it was not then true that the liabilities of said Company were not then large, but in fact were then large,

Whereas, in truth and in fact it was not true that it then owed Joseph Baker only seven hundred or eight hundred dollars, but owed him in fact a much larger sum.

Whereas, in truth and in fact it was not then true that if said Rigby would exchange his farm for stock and notes of said Company he would receive as good as six thousand dollars in gold, and

Whereas in truth the stock of said Company was then worthless, as the said Tefft, then and there well knew."

[*Here follows a reiteration of the counts of the indictment as given above.*]

We think the sufficiency of that support of the first three allegations will be generally recognized. The next allegation (4) is that Dr. Tefft had left Bangor and his location was not generally known, which he will hardly dispute, and (5) that shortly after the indictment negotiations were opened with Rigby by counsel in this city. In connection with this is the further allegation that Rigby secured a settlement by which the deed of his farm was restored to him. On this point it appears that in Sept. 1875 Rigby was induced to give his notes for $2,000 to invest as is understood in *Northern Border* stock, and as security for those notes gave a mortgage of his farm to the wife of Dr. Tefft which is recorded in Vol. 459, page 73, Penobscot Registry of Deeds as follows:

RIGBY'S FARM MORTGAGED TO MRS. TEFFT.

Rigby et al. to Tefft. "KNOW ALL MEN BY THESE PRESENTS, That I, Eli Rigby of Oldtown, County of Penobscot, State of Maine, and Lucy M. Rigby wife of said Eli, in consideration of two thousand dollars ($2,000) to us paid by Sarah Ann Tefft, of Brewer, County and State aforesaid, the receipt whereof is hereby acknowledged, do hereby give, grant, bargain sell and convey unto the said Sarah Ann Tefft and her heirs and assigns forever, all that certain tract or parcel of land situated and lying in Upper Stillwater village in said Oldtown, bounded and described as follows:

[*Here follow metes and bounds of said Rigby's homestead farm.*]

"*To Have and to Hold* the aforegranted premises, etc., "Provided, nevertheless that if the said Eli Rigby, his heirs, executors or administrators, shall pay to the said Sarah Ann Tefft, or to her executors, administrators or assigns, the certain notes made and signed by him to wit: One for four hundred dollars, dated July 1st, 1875 and payable to said Sarah Ann Tefft in one year from date and four other notes each for the same sum of four hundred dollars, bearing the same date and payable in two, three, four, and five years from date, with interest paid annually on each, then this deed shall be void, otherwise it shall remain in full force."

Signed, sealed and delivered, Sept. 21st, 1875, by Eli Rigby and Lucy M. Rigby and attested before L. Darling, Justice of the Peace.

Following this in April 1877, as charged by Rigby before the Grand Jury, he was induced to sign a deed conveying his farm outright to Dr. Tefft's daughter, Mrs. Bass, as appears by the following extract from Vol. 478, page 172, Registry of Deeds:

RIGBY'S FARM DEEDED OUTRIGHT TO DR. TEFFT'S DAUGHTER.

Rigby to Bass. "KNOW ALL MEN BY THESE PRESENTS, that I, Eli Rigby, of Oldtown, County of Penobscot, State of Maine, and Lucy M. Rigby, wife of said Eli Rigby, in consideration of four thousand dollars paid by Laura Jane Bass, of Brewer, County of Penobscot, State aforesaid, the receipt whereof we do hereby acknowledge, do hereby give, grant, bargain, sell and convey to the said Laura Jane Bass and her heirs, and assigns forever, a certain lot or parcel of land situated in Upper Stillwater village, in said Oldtown, bounded and described as follows:

[*Here follow bounds and description of the homestead farm of Rigby.*]

"*To have and to hold*," etc.

This deed is signed and sealed by Eli Rigby and Lucy M. Rigby, in presence of Vespasian Darling, and dated April 2d, 1877.

That negotiations were commenced with Rigby after the indictment through counsel in this city, nobody but Dr. Tefft will have the hardihood to deny, and an important part of the result of those negotiations appears by the following Registry record, Vol. 489, page 276, of the restitution of Rigby's farm on the 13th of this present month:

RIGBY'S FARM DEEDED BACK TO HIM BY DR. TEFFT'S DAUGHTER.

Bass to Rigby. "KNOW ALL MEN BY THESE PRESENTS, that in consideration of two thousand dollars paid by Eli Rigby of Bangor in said county the receipt whereof I do hereby acknowledge, I do hereby give, grant, bargain, sell, and convey unto the said Rigby, his heirs and assigns forever a certain lot and parcel of land situated in Upper Stillwater Village, Oldtown, being the same that was conveyed to me by said Eli Rigby and Lucy M. Rigby his wife by deed dated April 2d 1877, and recorded in the Registry of Deeds for said county in Vol 478 page 172, reference to said deed to be had for a particular description of the premises.

"*To have and to hold*," etc. * * * That I am lawfully seized in fee of these premises, that they are free of all incumbrances which have accrued since April 2d, 1877" etc.

This deed is signed sealed and delivered April 13, 1878 by Laura Jane Bass and Hamlet L. Bass, her husband, in presence of A. Sanborn Justice of the Peace.

The consideration of the above transfer consisted of a return of the newspaper stock, etc., and the restitution was completed by the discharge of the mortgage held by Mrs. Tefft, a few days later. The discharge has not yet been recorded, but Mr. Rigby has received it, and it was to await the receipt of that document that the New York parties were delayed from proceeding in their case. Cattle and personal property on the farm were also restored, and Mr. Rigby is again in possession of his home. If we have failed to sustain any of the allegations of the despatch thus far cited, we hope some one will call our attention to any deficiency of evidence.

THE NEW YORK CHARGES.

The next material allegation, (6) was that charges were made of irregularities as executor of the estate of a sister who died in Owego, N. Y., some years ago; (7) that several indictments were found; and (8) that a New York Sheriff brought a requisition upon Governor Connor for Tefft's arrest. As our foundation for these statements we present the text of a portion of the official documents in the case:

REQUISITION OF THE GOVERNOR OF NEW YORK FOR B. F. TEFFT TO ANSWER THREE INDICTMENTS.

Copy of application of District Attorney of Tioga County, N. Y., for Requisition against B. F. Tefft:

To His Excellency, Lucius Robinson, Governor of the State of New York:

Application is hereby made for a requisition against BENJAMIN F. TEFFT.

I certify that I approve of the requisition; that the party complained of, to wit: said Benjamin F. Tefft, is a fugitive from justice and I believe him to be at this time in the State of Maine; that he fled from this State before arrest could be made and that the ends of public justice require that he should be brought back to this State for trial at public expense; that I am content that such expense be a county charge and that I believe that I have within my reach and will be able to produce on the trial the evidence necessary to procure conviction.

This application is based upon an indictment, a certified copy whereof furnished by the clerk of the Court in which it is found, is hereunto annexed.

It is affirmatively stated that no other application for a requisition for the same person, for an offence arising out of the same transaction, has been previously made. I hereby name the State of Maine as the State upon which the requisition is asked, and name Charles W. Evans, one of the Deputy Sheriffs of the county of Tioga as a proper person to whom the warrant is to issue; and certify that said Charles W. Evans has no private interest in the arrest of the said fugitive.

I further certify that he said Benjamin F. Tefft is not known to be under arrest for any other offence.

LYMAN SETTEL,
District Attorney of Tioga County, N. Y.
Dated Owego, April 11th, 1878.

THE NEW YORK INDICTMENTS.

The requisition upon the Governor of Maine for Benj. F. Tefft upon the charge of *obtaining property by false pretences*, signed by Lucius Robinson, Governor of New York, is dated April 12th, 1878, and based upon three several indictments found in the Court of Oyer and Terminer of the County of Tioga in the State of New York. The finding of the first is:

That on the 27th day of October, 1870, and on divers other days subsequently, at the town of Berkshire in the county aforesaid, said Tefft, with force and arms on the day and year aforesaid, with intent to cheat and defraud one Frances Prentice, did falsely, feloniously, etc., represent to said Frances Prentice, that the estate of Laura J. Norton, deceased, of which Tefft was Executor, would not pay the legacies and other debts: That he had paid Ezra S. Buckbee $300 for damage on carpet done at the funeral of the said Laura Norton, and that he had to pay said Buckbee and William P. Stone to become sureties for him as Executor the sum of $600; that the real estate upon which there was a certain mortgage, had so greatly depreciated in value, that the estate would lose nearly $4000, and in consequence thereof the said Tefft would be unable to collect the amount due on a certain mortgage held by the said estate of $4,000 or thereabouts, which would be and was an utter loss to the estate; and the said Frances Prentice believing the said false pretences and representations was induced thereby to deliver a claim or demand against the said estate of the value of $100, and release her right to the same.

Whereas in truth and in fact the said estate was fully able to pay all the legacies and other debts and claims against it in full; and the said Tefft had not paid the sum of $300 to Buckbee for damage on carpet and had not paid his bondsmen the sum of $600; that the real estate aforesaid had not depreciated to an extent to occasion any loss to the estate; that the estate would not be the loser to the extent of $4000 on any real estate, as falsely represented by said Tefft, or any loss whatever.

THE SECOND INDICTMENT,

of same date and in same Court, was for false pretences and representations to Edson Hart.

That the estate would pay but 80 cents of every dollar of the claims against said estate; that the reason why it would not pay all the claims and legacies in full, was that the said Tefft had paid Buckbee $300 for damage on carpet; that he had to pay Stone and Buckbee $600 to become his sureties as executor of the will and testament of said Laura J. Norton; that the real estate upon which the estate held a mortgage, had greatly depreciated; that the estate would thereby sustain a loss of nearly $4,000. By reason of these false pretences and representations said Hart was induced to reduce the amount of his claim to the value of $100.

THE THIRD INDICTMENT.

of same term of same Court, for false pretences and representations to Colden W. Hart, precisely as in the second indictment, by reason of which said Colden W. Hart was induced to reduce his claim $100. The truth and facts are repeated at length in the second and third indictments as in the first.

The remaining material allegation was that Tefft was found at Lewiston and the Owego parties also secured a settlement from him. The only error in the despatch, and a very immaterial one at that, was in stating that Dr. Tefft was found at Lewiston. The New York officer and the Bondsman, Mr. Buckbee, went from here to Lewiston, and the despatches announcing their success came here from that city; but we believe that they found Dr. Tefft somewhere in the vicinity of Poland, a few miles from the city named.

That they secured a settlement is sufficiently shown by the failure to serve the warrant issued by Governor Connor on the requisition from New York, but we have authoritative information of advices received from Mr. Buckbee stating that at the interview with Dr. Tefft, backed by the fact of a New York sheriff with a requisition in his pocket, he secured the satisfaction of all the claims but one, and on account of the health of the Dr's wife refrained from causing his arrest.

We have thus attempted to meet the very defiant challenge of our truthfulness by the Rev. Dr. Tefft; and he has his own hardihood to thank for the publication of details which we had no special desire to handle, but which were very offensively called for by his appeal to the press to discredit our mild statement of facts.

We have now no wish to go beyond the limit of the issue he has raised, to discuss other topics with which his name has been associated. The rottenness of his *Northern Border* scheme was very bluntly set forth by the Grand Jury of this County in the document quoted above, and if further information on that point should be required, it is understood that the venerable Joseph Baker, of Brewer, can furnish his experience in getting relieved of some $10,000 in money, and his opinion of the value of the "newspaper property" in which he was persuaded by glowing representations to invest.

OFFICERS IN COMMUNICATION WITH THE RUSSIAN ADMIRAL.

The Vessel Boarded by the U. S. Revenue Officers.

The Great Sensation at the Harbor.

SOUTH WEST HARBOR, April 12. About 7 o'clock Sunday morning the steamer Cimbria, of Hamburg, one of the New York and Hamburg line, arrived at this place. According to Capt. Badenhausen's statement she is chartered by an agent of the Russian Government. She proceeded to Port Baltic in Russia, and there took on board six hundred men, mostly Finns as steerage passengers, and sixty-three men as cabin passengers. She sailed from Port Baltic, April 12th and passed around the North of Scotland.

A Passenger in Charge.

Capt. Badenhausen was under the orders of one of the cabin passengers, and when off Cape Sable, as he shaped his course for Cape Cod, he was directed to lay his course for South West Harbor. He has no cargo, only ship stores. He is now laying here waiting for orders. He professes utter ignorance of the destination of the vessel or men.

Nobody has been ashore except Captain Badenhausen and the gentleman in charge. The latter has the bearing of a naval officer and is a Russian. The Collector of the Port has not yet boarded the ship, and no other person has been allowed on board. The ship is full of men and keeps steam up continually.

The Steamer in Charge of a Russian Count with Six Hundred Men of the Russian Navy.

ELLSWORTH, April 30. The passengers on steamer Cimbria at South-West Harbor prove to be a regularly organized ship's company of sixty officers and six hundred seamen of the Russian Imperial Navy, under command of Count Grifenberg. On arrival a long despatch in cipher was sent to Admiral Lessovsky at St. Petersburg and the officers seem to be awaiting a reply. The ship has a large amount of stores on board, including coal for 10 days steaming. No arms nor ammunition are visible and the officers of the steamer deny that there are any such on board. The officers and crew of the steamer number one hundred and ten and are all Germans. Capt. Badenhausen was taken out of another steamer and appointed to the Cimbria, three days after he reached Hamburg and she took in stores and passengers as rapidly as possible. Capt. Badenhausen has asked for a bill of health from this port. The Russian officers are very reticent about the object of their visit and even profess to be ignorant of their destination or the purpose of their being sent here.

A Russian Nobleman on Board.

Among the officers is a Russian nobleman of high rank, who was with the Grand Duke on his visit to this country. None of the officers have yet been on shore, except the Captain and Purser of the ship and the Paymaster of the Russian corps.

Boarded by the Collector.

The Collector has boarded the ship and found her papers all right, corresponding to the captain's statement. Formal entry will be made to-day and a list of the passengers furnished as soon as it can be made out. They observe no special secrecy, but permitted the Associated Press Agent to freely go about the vessel. They think they may remain here some days, as the officers are inquiring about game and fish on Mt. Desert. The ship came in without a local pilot and is making no inquiry for a pilot. The steamer is not disabled.

A Report from Vienna.

LONDON, April 30. The Manchester Guardian's Vienna correspondent telegraphs as follows: The steamship Cimbria which was chartered by the Russian Government, has taken a contingent of 40 officers and 600 seamen and started to cruise on the Chinese and Japan coasts.

What is Said in Washington.

WASHINGTON, April 30. No information is obtained here concerning the movements or purposes of steamer Cimbria recently reported off Ellsworth, Maine. The object excites no particular interest in Washington. A gentleman extensively engaged in shipping, is authority for the statement that Russian agents have been privately making inquiries as to what supplies of ships, etc., could be furnished that Government should they be needed.

Comments of British Residents in New York—A Poor Opinion of American Honor.

NEW YORK, April 30. The English residents of New York gathered in noteworthy numbers at their customary resorts to-night discussing the possible bearing of the Cimbria's arrival. The general belief was that any attempt at fitting out privateers in American ports would be prevented by the State Department, but against this it was argued that self-interest as well as the desire to "pay England back" for her action in the civil war, would make the United States wink at the destruction of British commerce.

Chartered by the Russian Government.

The first officer of the Pommerania, another steamer of the same line, says: "There is no doubt of the transfer of the Cimbria to Russian agents. The fact that she had been chartered by the Russian Government was a matter of common report when we sailed."

MASSACHUSETTS.

A Desperate Burglar Foiled.

WORCESTER, April 30. The house of D. S. Messenger was entered by a burglar who took his daughter, a young lady, from her bed and compelled her to show him the valuables. The other daughter went to her father with the alarm, who got up and with a pistol attempted to shoot; but the burglar held the girl between himself and the pistol till he gained a window and jumped out. He was afterwards arrested. He is a colored man named Brown and boarded with Messenger's coachman. He cut his upper lip off and injured his leg in jumping.

FORTY-FIFTH CONGRESS, Second Session.

Senate.

WASHINGTON, April 30.

The Senate bill to repeal the Bankrupt Law with amendments by the House came up, and Mr. Merrimon moved its reference to the Judiciary Committee. Mr. Beck opposed reference and Mr. Conkling favored it. Pending debate the morning hour expired and bill was laid aside.

Mr. Morrill, from the Committee on Finance, reported adversely on the concurrent resolution declaring it inexpedient to levy taxes at this time to maintain the sinking fund, and the Committee was discharged.

In submitting the report Mr. Morrill said that the law as it stands provides for a sinking fund, and could not be repealed by the concurrent resolution.

Mr. Butler, of S. C., introduced a measure to repeal the tax on State bonds.

Mr. Cockrell from Committee on Military Affairs reported without amendment, House bill authorizing the President to appoint James Shields of Missouri, a Brigadier General in the United States army on the retired list. Placed on the Calendar.

Conference report on Naval Appropriation bill agreed to.

The discussion of the Bankrupt Law was resumed. Dawes, Hill, Matthews, Allison, Hoar, Edmunds and Thurman opposed summary repeal and favored referring to the judiciary Committee.

Pending discussion the Senate adjourned.

House.

Bill for relief of settlers on land claimed by North and South Alabama Railroad Co. came up as unfinished business. After short discussion it was referred to Committee of Whole, which then took up the Legislative Appropriation bill.

A debate ensued in which Speaker Randall took the floor and accused the Republicans of herding together to oppose economy. The charge was vigorously denied by Garfield and Hale, and in the course of the discussion Calkins, of Ind., read from Mr. Randall's speech in favor of the back salary bill.

Mr. Randall said in reply that he had honestly advocated the increase of members salaries, but the people condemned it and he obeyed.

Calkins—Did the gentleman ever pay back the $5,000 drawn from the Treasury?

Randall—I never did. I look over all my record here and I can say truthfully I have never cast a vote that was prompted by any personal consideration.

After further discussion the Committee rose after having disposed of only four pages of the bill and the House adjourned.

THE EUROPEAN CRISIS.

No Definite Results.

Gen. Ignatieff's Views.

STUBBORNNESS OF BOTH SIDES.

Ignatieff Interviewed.

NEW YORK, April 30. In an interview at St. Petersburg yesterday, Gen. Ignatieff said there were ninety-nine chances in one hundred that the Congress would meet early, and that he would attend and accompany Gortschakoff, and that the Congress cannot annul the San Stefano treaty. He said that Russia could not demand less than she had already asked at the Constantinople conference; otherwise the war had been waged in vain.

"What think you will be the result of the Congress,—peace or war?"

"Who knows? In dealing with England one is never sure of anything. If she can get up a war without being compelled to participate, England will have a war. If, however, it is clear that she will be obliged to fight, we have reason to believe that we shall have peace."

"What will be the Russian attitude at the Congress?"

"Firm. Having conceded so much in order to arrive at a Congress, Russia is determined that the Eastern question shall be finally decided, so that there will not be a renewal of the struggle next year."

"So you anticipate nothing certain as to the issue of the Congress?"

"It is impossible to form an opinion yet. War or peace depends on England first, then on Austria. Russia will not yield more. If England and Austria are not contented with our concessions at present, I can only say that we are ready and disposed for whatever may come."

In the Russian Camp.

LONDON, April 30. The Times' Pera despatch says it is the opinion in the Russian camp, that a change of commanders marks the era of a sterner policy.

The Negotiations—Gortschakoff's Sickness.

VIENNA, April 30. The Political Correspondence says the negotiations between Russian headquarters and Admiral Hornby for simultaneous withdrawal have remained at a complete standstill the last few days. It is reported that General Todleben has brought fresh instructions and the the resumption of these negotiations will possibly be attempted. As Gortschakoff will probably be prevented from resuming his duties for some time, the idea has been revived of the summoning of Count Schouvaloff to discharge Gortschakoff's functions ad interim.

Russia and Servia Reconciled.

BELGRADE, April 30. It appears that the friendship between Russia and Servia is completely restored.

Warlike Feeling.

The Times correspondent at San Stefano says: The impression in the Russian Army is that Todleben's appointment portends strife. I am told that Generals Todleben and Imeretinsky both think war inevitable.

FOREIGN FRAGMENTS.

A serious affray has occurred between Russian and Turkish soldiers near Constantinople.

The betrothal of Queen Victoria's third son to the third daughter of Prince Frederic Charles of Prussia will be celebrated in May.

It is believed England will invite the Powers to a conference in London. Direct negotiations between England and Russia are proceeding.

Considerable excitement was caused in Berlin by announcement that the English fleet is being fitted out for eventual operations in the Baltic.

The Carbon Pictures.

Mr. Editor:—As Mr. Mann has decided to give us the benefit of his collection of carbon pictures and photographs another week, it seems almost a duty to urge all who feel an interest in Art matters, or who have ever heard of the statues and pictures made by the great Artists of the world to improve as much as possible of this week in examining this wonderful collection. The whole of the walls of Unity Club rooms are covered with Mr. Mann's pictures, and great piles of them lie open for inspection on tables in the different rooms. There is in the country no collection equal to it, in number of photographs, quality of execution, or thoroughness with which the productions of different artists and schools of art are represented; and we who cannot visit Europe, equally with those who have been there and have seen many of the originals of these faithful copies, ought to be thankful for this opportunity. The so-called carbon process has been sufficiently described—its chief merit is the entire permanence of its products, so that purchasers thereof may be sure that their fine pictures will not fade away as do many ordinary photographs. The prices of these pictures have been largely reduced since last year, and everybody can now afford to buy such as please them; but my object is not specially to urge the attendance of purchasers; it is to remind all our citizens that here is open to their inspection and study the finest collection of copies of the best works of the World's best artists that has ever been shown together; that nothing is charged for admission to the Hall, and that those who can spare a little time cannot employ it more profitably than by visiting Unity Hall this week. It is a rare opportunity for all who know how to use their eyes. H.

VEGETINE
FOR
Chills, Shakes, FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—Dear Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for *Chills, Shakes, Fever and Ague.* My son was sick with measles in 1873, which left him with dropsical disease. My son suffered a great deal of pain all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle; he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.
Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

VEGETINE
FOR
DYSPEPSIA, NERVOUSNESS, And General Debility.

BERNARDSTON, Mass., 1878.

We, the undersigned, having used Vegetine, take pleasure in recommending it to all those troubled with *Humors of any kind, Dyspepsia, Nervousness, or General Debility,* it being the Great Blood Purifier. Sold by E. L. Orswell & Sons, who sell more of it than all other patent medicines put together.
MRS. L. F. PERKINS. MRS. H. W. SCOTT. JOSEPHUS SLATE.

Vegetine is the great health restorer—composed exclusively of barks, roots and herbs. It is very pleasant to take, every child likes it.

VEGETINE
FOR
Nervous Headache & Rheumatism

CINCINNATI, O., April 9, 1877.

H. R. STEVENS:—Dear Sir,—I have used your Vegetine for Nervous Headache, and also for Rheumatism, and have found entire relief from both, and take great pleasure in recommending it to all who may be likewise afflicted.
FRED A. GOOD, 105 Mill St., Cin.

Vegetine has restored thousands to health who had been long and painful sufferers.

VEGETINE.
Druggists' Testimony.

MR. H. R. STEVENS:—Dear Sir,—We have been selling your remedy, the Vegetine, for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the *ne plus ultra* of renovators.
Respectfully, E. M. SHEPARD & CO., Druggists, Mt. Vernon, Ill.

Is acknowledged by all classes of people to be the best and most reliable blood purifier in the world.

ST. NICHOLAS.
SCRIBNER'S ILLUSTRATED MAGAZINE FOR GIRLS AND BOYS.

The LONDON ACADEMY, of December 22d, 1877, says: "*In St. NICHOLAS we welcome the best stamp of juvenile literature that we have yet seen. * * * We have no hesitation in saying that both in the letter-press and in the pictures this American magazine has no rival.*"

In ST. NICHOLAS for December, the Grand Christmas Number, was begun a charming new

Serial Story by Miss Alcott

"Under the Lilacs," illustrated by MARY HALLOCK FOOTE, to continue during the year. This same Christmas number, of which one hundred thousand copies were printed, contained the opening chapters of A "ROBINSON CRUSOE" STORY for boys, "Tower-Mountain," by GUSTAVUS FRANKENSTEIN, also poems by LONGFELLOW and BRYANT, a portrait of Miss Alcott, half a dozen short stories, pictures, poems, etc., etc. It is the handsomest number of a child's magazine ever issued.

The NEW YORK TRIBUNE says:

"ST. NICHOLAS has a list of contributors such as no other child's magazine, or few publications of any sort, in the world can boast. It has caused the best writers in America to turn their attention to the task of giving delight and imparting culture to children. In the avalanche of immoral literature that threatens the children, some strong, vitally wholesome, and really attractive magazine is required for them, and ST. NICHOLAS has reached a higher platform, and commands for this service wider resources in art and letters, than any of its predecessors or contemporaries."

ST. NICHOLAS FOR 1878,

Besides the SERIAL STORIES above announced, will have a short serial story by the author of "The Schonberg-Cotta Family;" and THREE SPLENDID SERIALS FOR BOYS, one of which "DRIFTED INTO PORT," by EDWIN HODDER, an English writer, will begin in March. "Around the World in a Yacht, Boys," has been promised by a brilliant writer, now on the actual tour of the world in his own yacht. There will be contributions by a daughter of the famous Peter Parley, and a Letter to Young Americans by GEORGE MACDONALD.

The "HOW" Series of instructive papers, by various authors, will tell HOW to bind your own books; HOW they mine coal; HOW to enjoy yourselves at home; HOW to be an agreeable guest; HOW to entertain company; HOW to be a carpenter; HOW to make an ice-boat; HOW to build a house; How India rubber is gathered; HOW matches are made; HOW to be a Parlor Magician; HOW money is made; HOW mackerel are caught; HOW they laid the Atlantic cable; HOW they mine in California; HOW they work in the tea-country; etc. There will be also a series of stories and sketches of Foreign Life,

"TRAVEL AND ADVENTURE,"

such as "Old Nicolai" (a Russian story), "A Day among the Welsh Castles," "Easter in Germany," "The Indians of the Amazon," "How Kitty was lost in a Turkish Bazar," "Master Montezuma" (a Mexican story), "Hansa, the Lapp Maiden," and many others.

"Jack-in-the-Pulpit," "Young contributors' Department," "Letter-Box," "Riddle Box," and "For Very Little Folks," will be continued.

The Tin Tag Smoking Tobacco is "second to none" in aroma, mildness, purity & quality.

NOTICE TO CONSUMERS

—OF—

[illegible]

The great celebrity of our TIN TAG TOBACCO has caused many imitations thereof to be placed on the market, we therefore caution all Chewers against purchasing such imitations.

All dealers buying or selling other plug tobacco bearing a hard or metallic label, render themselves liable to the penalty of the Law, and all persons violating our trade marks are punishable by fine and imprisonment. SEE ACT OF CONGRESS, AUG. 14 1876.

The genuine LORILLARD TIN TAG TOBACCO can be distinguished by a TIN TAG on each lump with the word LORILLARD stamped thereon.

Over 7,086 tons tobacco sold in 1877, and nearly 3,000 persons employed in factories.
Taxes paid Government in 1877 about $3,500,000, and during past 12 years, over $20,000,000.

Pensions, Pensions.

A law has just passed giving a Pension of $96 per year to all Soldiers of the War of 1812, who served 14 days, or were in any engagement, and their widows, also, are entitled to the same pension, regardless of the date of their marriage. I am authorized to obtain these pensions for all who are entitled.
Application can be made to me in person at my office in Bangor, or by letter. The earlier the application the better for the applicant.
I have all the rolls and records of every soldier of the war, with their names in alphabetical order so that every soldier's service can be readily ascertained.
No other person in Maine has these records, except U. F. Brown, Esq.

Collections are made morning and evening in season for important mails—the down town boxes fifteen and the up town boxes thirty minutes before closing mails at the office.
Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8 P. M. Sundays from 8½ to 9½ A. M.
Any irregularities in the Carrier's department should be reported to the office.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.
The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.
First class envelopes of above furnished at $22.50 per thousand.

Stamps cut from Stamped Envelopes cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.
